General Support Division  
Fort Eustis, VA**

**Major Anthony Kram, [anthonyk@eustis.army.mil](mailto:anthonyk@eustis.army.mil)**

The Sustainable Range Program (SRP) Support Contract is a 5-year, approximately \$200 million contract support vehicle developed by the Army **to ensure sustainability of U.S. Army military training ranges, lands, and operating areas.**

The indefinite delivery, indefinite quantity (IDIQ) contract was awarded in 2004 and the ordering period extends through 2009. This easy-to-use contract vehicle offers firm, fixed-price performance work statements (PWS), with pre-negotiated labor rates to ensure timely, high quality, cost-effective services.

#### **Long lead times are history -**

PWS procedures for the SRP Support Contract have been refined and streamlined to ensure rapid contracting of SRP support. And because the SRP Contract is an IDIQ Contract, **you are free to tailor PWSs to your unique requirement** - so that you can buy only what you want, when you want, and where you want.

**There is a ~~reportedly~~ no fee  
associated with the use of this  
contract.**

**and  
ATSC Offer  
Customer-focused  
Commitment!**

## PRIME CONTRACTOR TEAM

**CALIBRE SYSTEMS** - a center of installation, environmental, financial, logistical, and information technology expertise, provides value to customers

for sustainable management of training

ranges, installations, land assets, and natural and cultural resources. Their expertise includes developing cost effective solutions to holistically and proactively operate, equip, and

manage

training, and training facilities; plan and

conduct environmental compliance and

remediation actions; provide GIS products

of all types; create and implement out-

reach products; and otherwise focus the

company's expertise on supporting Army

training requirements that are critical to

Army readiness. CALIBRE's team

includes 13 specialty subcontractors.

### Subcontractors:

Booz Allen Hamilton, Inc.

Carney Enterprises, Inc.

Energy and Security Group, LLC.

Engineering and Environment, Inc.

Geographic Information Services, Inc.

## TASK AREAS

- Target
- Range Planning, Modernization, & Safety
